

# InterCompany AR Cash Receipts for Microsoft Dynamics GP

Allows cash to be received in any company and applied to sales documents in any other Microsoft Dynamics GP company.

**Our InterCompany AR for Cash Receipts module provides a centralized cash receipt and apply process for sales documents created in different Microsoft Dynamics GP companies.**

In a multi-company environment, customer payments are often made to a central (headquarter) company. InterCompany AR for Cash Receipts will allow all cash to be received in any company and applied to sales documents in any other Microsoft Dynamics GP company.

## Key Features

Supports a centralized cash receipt process for a group of companies

Up-to-date AR Aging reports across multiple companies

Keeps Due to/From accounts in balance between related companies

## Your Benefits

Eliminate dual entry  
Reduced errors  
Increased customer satisfaction
