

# Drag and Drop for Microsoft Dynamics GP

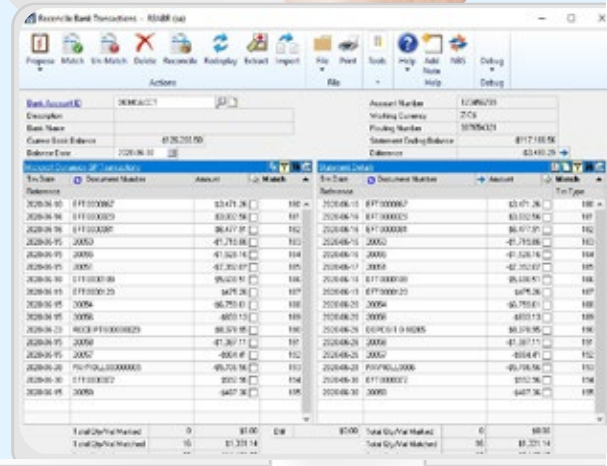

Drag and drop attachments directly into the document attach window in Microsoft Dynamics GP.

## Save countless minutes everyday

The perfect time saving solution for companies that store attachments against any of the following:

- > Employee Expenses, Invoices, or Suppliers
- > Items, Item specs, or General Ledger Journals
- > Customers, Sales Transactions, or Purchase Transactions

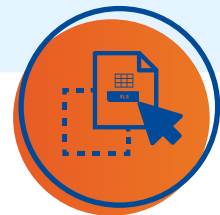

### Copy and paste functionality

Copy and paste text or images directly from your clipboard.

### No more bulky databases

Save space by saving attachments directly onto a network drive, rather than within your database.

### Automatically populate journals

Simply by dragging and dropping an Excel file.
