

Nolan Electronic Payments (EFT) for NetSuite

**Outsource all your payment processing to your bank.
Pay your vendors and bills anywhere anytime in the world.**

Nolan Electronic Payments for NetSuite (NSEP) allows you to easily pay all your vendor bills and employee expense reports by ACH, wire, check, or card through your bank. NSEP generates a payment file from within NetSuite for you to upload to your bank. Your bank can now easily print and mail checks, send wires and ACH payments, and issue bank card payments from one file source.

FEATURES AT A GLANCE

- 1 Flexible bank format definition mapping tool to accommodate most bank requirements
- 2 Process domestic and/or international payments
- 3 Use NetSuite check numbers while having the bank print and mail checks
- 4 Consolidate payments from multiple bank accounts into one bank file using one bank format
- 5 Maintain multiple sets of bank account details per vendor
- 6 Support for vendor bills and employee expense reports
- 7 Send bill payments to the bank as ACH, wires, checks and/or cards
- 8 Export files to the bank automatically (additional fees apply)
- 9 Send email remittances to vendors and employees automatically
- 10 Enable approval process for any new or updated vendor bank account details
- 11 New Bill Payment Approval module add-on available to introduce a new bill payment approval step after bill payments have been created but before the bank file gets generated
